

FOR IMMEDIATE RELEASE

AERC.com, Inc. Collects Over Forty Seven Thousand Pounds of Electronic Waste at Vero Beach Electronics Recycling Collection Event Held on January 23

Flanders, NJ – January 29, 2010 – On January 23, 2010, AERC collected more than 47,000 pounds of Electronic Waste at the Indian River County Mall. The event was held outside the Macy's parking lot from 9AM to 3PM. The success of this event was marked by the participation of 715 cars containing electronics for recycling. All electronics collected have been forwarded for processing to AERC's Electronics Processing Com-Cycle facility in West Melbourne, Florida. Any data contained on any data storage devices has been physically destroyed or wiped according to the Department of Defense Standards.

Collected materials included computers, keyboards, televisions, modems, fax machines, printers, scanners, handheld games, telephones, cell phones, cameras, pagers, VCRs, tape decks, CD players, movie projectors, radios, and other electronic products. All collected equipment was processed according to a Zero-Waste-to-Landfill Policy. The equipment is remarketed or returned to the appropriate commodity materials streams for use in the manufacturing of other products.

AERC's local Electronics Recycling Collection Events and the National Drop Off Friday Program are vehicles for raising awareness as well as providing a service to individuals and small business owners who may have limited means of disposing of Electronic Waste and certain Universal Waste materials. Local community members are able to drop off small quantities of electronic waste at Electronics Recycling Collection Events throughout the country. In addition, every AERC facility hosts Drop Off Fridays between the hours of 9AM and 4PM. Another option available for smaller producers of Electronic or Universal Waste is AERC's RecycleKits Program. You may learn more about this program by visiting www.RecycleKit.com. Handling of larger quantities is coordinated with an AERC Sales Representative, as AERC provides a customized solution for each individual client.

About AERC Recycling Solutions

AERC Recycling Solutions is committed to a green world by helping clients in proper end-of-life management of assets, including those containing sensitive data and components hazardous to our environment. AERC has become an industry leader through its partnerships with clients by providing unmatched convenience, regulatory compliance and expert consulting to handle Electronic Waste issues. AERC is committed to responsible recycling practices for a healthier tomorrow.

AERC maintains a Zero-Waste-to-Landfill Policy for all of its hazardous electronics/ electrical recycling services. All electronics are dismantled domestically by our highly trained staff. Any information on data storage devices is either wiped to the Department of Defense Standards or physically destroyed. AERC offers its clients compliance with Federal, State, and Local regulations and can provide an audit trail for compliance with data security and environmental laws. With its own fleet of GPS tracked trucks, the Company provides delivery confirmations and in-house management of logistics. The Company provides "chain of custody" of assets for clients with coverage throughout all major markets in the United States, with continued plans for expansion across the United States. For additional information please visit www.aercrecycling.com or www.com-cycle.com.
